Technical Data Sheet

Bodybuilder Brew Enhancer

Description

Bodybuilder Brew Enhancer is a yeast product developed by WHC Lab. It is an inactive yeast based product that is high in polysaccharides and oligosaccharides. It is a product used specifically for increasing body and mouthfeel in beer and reducing the dependence on more complex sugars such as maltodextrin for providing sweetness in beer.

Style

All styles of beer

Guidelines

This product is added at a rate 20-40g/hl into the kettle.

Ingredient Declaration
