Storage and Handling

Storage Conditions:	Store at cool to ambient temperatures (ideally 5°C to 15°C or 41°F to 59°F), dry, well-ventilated environment.
Shelf life:	Minimum 2 years from date of production, if the vacuum seal is not broken, and if stored as outlined above.
Handling:	Once opened, re-seal to keep out air and water. For best results, store re-sealed packs in a refrigerator (0°C to 10°C or 32°F to 50°F) and use promptly. Please note the expiry date on packs prior to opening. When added to water or a water solution, Poseidon Dry Yeast releases CO₂, especially on substrates high in sugars or starch. Ensure adequate ventilation to keep levels below advised exposure limits. <i>Please request a Material Safety Data Sheet/MSDS for further advice.</i>
